OFFICE OF THE SECRETARY

Re: *Ex Parte Presentation*  
In the Matter of Review of the Section 251 Unbundling  
Obligations of Incumbent Local Exchange Carriers,  
CC Docket Nos. 01-338.96-98.98-147

Dear Ms. Dortch:

On December, 6, 2002, Richard Whitt, Kimberly Scardino and Henry Hultquist of WorldCom, Inc., and A. Richard Metzger, Jr., of Lawler, Metzger & Milkman, counsel to WorldCom, met with Jordan Goldstein, Senior Legal Advisor to Commissioner Copps, to discuss the above-captioned proceeding. During the meeting, WorldCom described the circumstances under which incumbent LECs should continue to be required to provide access to unbundled transport and high-capacity loops, as discussed in previous WorldCom submissions filed in this docket.<sup>1</sup>

WorldCom also explained the importance of being able to obtain timely migration of circuits from incumbent LEC facilities to competitors' own fiber facilities. This migration, known as grooming, plays an important role in permitting the development of competitive alternatives to incumbent-LEC provided transport. Unfortunately, Verizon and SBC are limiting the number of circuits they will groom in a given month. Until this situation is remedied, WorldCom will not consider extending competitive fiber transport facilities to additional Verizon wire centers. Verizon's refusal to perform circuit migrations in a timely fashion makes it cost-ineffective for WorldCom to deploy its own facilities. WorldCom therefore urged the Commission to take the steps necessary to ensure that incumbent LECs such as Verizon and SBC substantially increase the number of circuits they will groom each month, and are held accountable for circuits that **are** not groomed by the requested date.
